EXPERIENCE

Wolfram Research [2022-Present]

UI/UX Project Manager

Managing UI/UX and Front End Development teams by organizing meetings, setting agendas, taking meeting notes, and creating weekly progress reports. Tracking old and new tasks for software releases. Maintaining and monitoring Wolfram's store presence. Conducting competitor analysis reports for feature additions.

JUICE Pharma Worldwide [2021]

Freelance Project Coordinator

Managed project timelines, resourcing, and cross-team coordination. Ensured timely deliverables and actively communicated project statuses. Tracked budgets and maintained online tasking system.

Publicis North America [2016]

Innovative Developer Intern

Developed web and mobile prototypes for clients. Identified and troubleshoot front-end website issues. Researched and incorporated industry design trends and best practices. Created technical documentation and editorial content for QA and UX. Developed creative concepts with a team to pitch a campaign to Vicks.

Sudler & Hennessey [2015]

Front End Engineer Intern

Hardcoded email design, content, subscriptions and branding for pharmaceutical companies. Performed detailed QA testing on webpages, mobile apps, and emails. Assisted developers and designers to ensure pixel perfect prototypes. Presented marketing ideas to non-profit organization.

PROJECTS

Google UX Design [2021-2022]

Created three end-to-end projects that include a mobile app, responsive website, and a cross-platform experience by following the design process and applying foundational UX concepts.

Professional Social Media [2019-2020]

Explored effective writing for social media and strategies for engagement. Identified emerging digital platforms and trends. Created campaign strategy and mockups for Shake Shack.
